The compliance process and the e-MARIS application
The e-MARIS campaign CoC25 - New requirements, streamlining and functionalities

PREPARED BY: IOTC SECRETARIAT[1] 26 NOVEMBER 2026

PURPOSE

To provide participants at the Working Party on the Implementation of Conservation and Management Measures (WPICMM) with the opportunity to review, provide comments and endorse:

- the e-MARIS campaign "*CoC25 – 2028 assessment campaign",*
- the new requirements, if any, of the *CoC25 – 2028 assessment campaign*, and
- The requirements streamlined, if any, of the *CoC25 – 2028 assessment campaign*, and
- the new functionalities, if any, available in the *CoC25 – 2028 assessment campaign*.

BACKGROUND

In 2013 the Indian Ocean Tuna Commission (IOTC) Performance Review made two recommendations related to compliance with data collection and reporting and following up on infringements. These recommendations prompted the e-MARIS application concept, which was endorsed by the Commission (S22) in 2018.

The e-MARIS has been in production since four campaigns/compliance assessment cycles of the Compliance Committee (CoC), with most of CPCs having used e-MARIS to report on the various IOTC obligations, including the submission of the mandatory Implementation Report (IR) and the Compliance Questionnaire (CQ) and facilitating the Compliance Report processes in e-MARIS to support the work of the Compliance Committee.

At its 21st meeting, the Compliance Committee noted and recommended the following:

> IOTC-2024-CoC21-R - Paragraph 84. The CoC21 **RECOMMENDED** that the Commission (S28) consider making the use of e-MARIS mandatory, while recognising the need to streamline procedures for reporting.

> IOTC-2024-CoC21-R - Paragraph 170. The CoC21 **NOTED**, in accordance with the recommendations of CoC15, the progress made by the IOTC Secretariat towards the work related to the development and improvement of the e-MARIS application to support the IOTC Compliance process, and **FURTHER NOTED** the improvements implemented to facilitate reporting in e-MARIS.

At its 28th Session, Indian Ocean Tuna Commission endorsed the following:

> IOTC-2024-S28-R - Paragraph 94. ….the Commission **ENDORSED** the remaining recommendations arising from the Report of the 21st Session of the Compliance Committee as its own.

The mandatory use of the e-MARIS application was decided by the Commission (S28 - 2024) from the campaign "CoC22 - 2025 assessment".

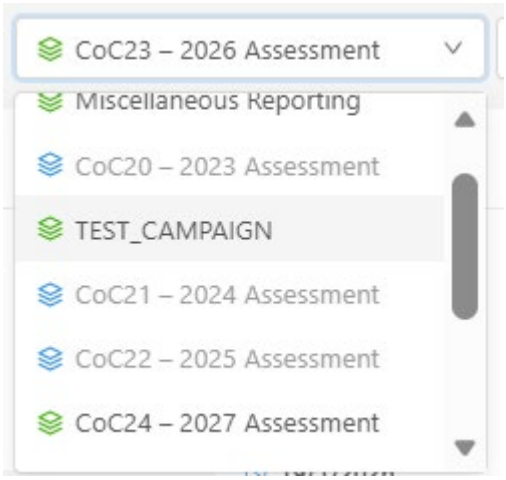
DISCUSSION

A) THE E-MARIS CAMPAIGN COC25 - 2028 ASSESSMENT

In the e-MARIS application, the campaign "CoC25 - 2028 assessment", is available from the compliance dashboard under the campaign menu.



Since campaigns overlap, CPC must ensure they are in the right campaign before making a submission of a requirement.

The e-MARIS manual, ''e-MARIS campaigns'', is available in the IOTC web site.

Figure 1: The e-MARIS campaign menu.

The compliance reports for the CoC25 will be populated with information reported in the e-MARIS campaign "*CoC25 - 2028 assessment*": Compliance assessment cycle will be concluded with the CoC25 in 2028 and the Commission (S32) meetings. The compliance assessment is conducted during the year 2028 for the data/information/report submitted to the Secretariat for the years reporting on, i.e. 2026 and 2027.

The description of the campaign is presented in the below table:

Name of the e-MARIS campaign	CoC25 - 2028 assessment		
Start:	January 2027		
End:	Commission meeting in 2028		
Reporting year/Assessment year:	2026/2027		
Total number of requirements:	99		
Number of assessed requirements:	85		
Number of not-assessed requirements:	14		
Number of requirements with reporting on System/procedures (SP):	43		
Number of requirements where SP is not applicable:	60		
Reporting effort by deadline type:	IR	CQ	Fixed date
(All 85 assessed requirements)	29	53	37

Table 1: The campaign description "CoC25 - 2028 assessment".

CPCs Excluded/Included are listed by their ISO three letter country code (Standard ISO 3166) in the meeting document IOTC-2027-WPICMM10-16_Add1.

The CPCs exclusion and inclusion are also available at the beginning of each requirement, as shown Figure 2, below.

Figure 2: CPCs exclusion and inclusion.

The e-MARIS campaign "*CoC25 - 2028 assessment*" is structured in 12 categories. They are represented in the Compliance Report by sections:

	Number of requirements	
Category	**Assessed**	**Not Assessed**
1 - Implementation obligations	7*	None
2 - Management standards	23	1
3 - Reporting on vessels	7	None
4 - Vessel monitoring system	1	None
5 - Mandatory statistical requirement – flag State CPCs	11	2
6 - Implementation of mitigation measure and bycatch of non-IOTC species	14	None
7 - Illegal, unreported and unregulated (IUU) vessels	2	7
8 – Transhipments	6	2
9 – Observers	4	1
10 - Statistical document programme	4	None
11 - Port inspection	6	None
12 – Market measures	None	1
Total	**85**	**14**

*: Including IR and CQ under TAB Reports of the e-MARIS dashboard

Table 2: The campaign/compliance report categories/sections.

B) NEW REQUIREMENTS, NEW FUNCTIONALITIES, AND REQUIREMENTS STREAMLINING

Several improvements are made in the e-MARIS requirements setting and design every year. The main objective is to streamline the requirements where feasible and to facilitate the reporting in the e-MARIS campaign.

B.1. - REQUIREMENTS STREAMLINING

Requirements have been streamlined in the e-MARIS campaign "*CoC25 - 2028 assessment*":

- **Requirement number 2.9**: Prohibitions and marking of drifting FADs (Resolution 24/02).

The previous requirement, in CoC24, intended to report on only one obligation related to the marking of DFAD. With the entry in force of the Resolution 24/02 in 2025 and the introduction of three prohibitions, requirement 2.9 includes, from the campaign CoC25, the reporting on:

- Prohibition: to discard DFADs, associated instrumented buoys

  Abandoned, Lost or Otherwise Discarded DFADs

  Paragraph 25) *CPCs shall prohibit their flag vessels from deliberately discarding DFADs or associated instrumented buoys except in cases of force majeure.*

- Prohibition: to use mesh materials for any part of a DFAD

  Non-entangling and Biodegradable DFADs

  Paragraph 30) *To reduce the impact on marine biodiversity and the entanglement of sharks, marine turtles or any other species, CPCs shall ensure that their vessels only use DFADs whose design and construction comply with the following specifications as outlined as an example in Annex IV:*

  a) the use of mesh materials shall be prohibited for any part of a DFAD;

- Prohibition: to use any other buoys on DFADs (Only instrumented buoys permitted)

  Paragraph 46) *In order to support the monitoring of compliance with the limitations established in this Resolution, CPCs shall: a) ensure that their flag vessels use instrumented buoys on all DFADs and prohibit the use of any other buoys, such as radio buoys, that do not meet the definition in paragraph 1;*

- Obligation: DFADs to be marked

  Paragraph 39) *CPCs shall ensure that their vessels do not deploy DFADs unless the instrumented buoy attached to the DFAD is permanently marked with the unique reference number marking (ID provided by the manufacturer of the instrumented buoy) and the IOTC unique vessel identifier number is permanently and clearly visible.*

Deadline: Same as the Compliance Questionnaire deadline.

Requirements related to the Resolution 19/07 have been streamlined in the e-MARIS campaign "*CoC25 - 2028 assessment*":

- **Requirement number 3.2**: Chartering CP - Particulars of charter agreements, catches, effort, observer coverage and information on the particulars of the charter agreements and detail of vessels, start, suspension, resumption and termination of the fishing operations under the chartering agreement.
- **Requirement number 3.3**: Flag CPC: Consent, measures, agreement implementation of IOTC CMMs / Start, suspension, resumption and termination of the fishing operations of chartering agreement.

The previous reporting requirements on Resolution 19/07 were divided in four e-MARIS requirements in CoC24 (3.2, 3.3, 3.4, 3.5). In CoC25, the two requirements streamline reporting to; a) the Chartering CP and b) the flag CPC 3.3.

Deadline: Fixed date – 28/02 every year.

Requirements related to the Resolution 14/05 have been streamlined in the e-MARIS campaign "*CoC25 - 2028 assessment*":

- **Requirement number 3.5**: List of foreign vessels licensed in EEZ and List of foreign vessels denied a licence.

The previous reporting requirements on Resolution 14/05 were divided in two e-MARIS requirements in CoC24 (3.7, 3.8). In CoC25, the requirement streamlines the two reporting in one single requirement (3.5).

Deadline: Fixed date – 15/02 every year.

Requirements related to the Resolution 26/03 have been streamlined in the e-MARIS campaign "*CoC25 - 2028 assessment*":

- **Requirement number 6.4**: Prohibitions on mobulid rays and associated obligations.

The previous reporting requirements on Resolution 19/03 (superseded by Resolution 26/03) were contained in two e-MARIS requirements in CoC24 (6.4 and 6.5). In CoC25, the requirement is streamlined in one single requirement (6.4), with the introduction prohibitions. The requirement 6.4 includes, from the campaign CoC25, the reporting on:

- Prohibition: For all vessels - To intentionally set any gear type for targeted fishing of mobulid rays.

  Paragraph 3) *CPCs shall prohibit their flag vessels from intentionally setting any gear type for targeted fishing of mobulid rays.*

- Obligation to : Release alive, implement live release handling procedures of mobulid rays

  Paragraph 5) *CPCs shall require all their flag fishing vessels, other than those carrying out subsistence fisheries, to promptly release alive and unharmed, to the extent practicable and taking into consideration the safety of the crew and observers, mobulid rays incidentally caught in IOTC fisheries as soon as they are seen in the net, on the hook, or on the deck, and do it in a manner that will result in the least possible harm to the individuals captured. CPCs shall implement and ensure that their*

fishing vessels apply "General principles applying to all gears" outlined in the Minimum Standards for Safe Handling and Live Release Procedures detailed in Annex I.

- Prohibition: For all vessels except subsistence fisheries - To retain onboard whole carcass of mobulid rays.

- Prohibition: For all vessels - To tranship, land, store, sell, offer for sale any part or whole carcass of mobulid rays.
- Prohibition: For all recreational and sport fishing vessels - To retain onboard, tranship, land, store, sell or offer for sale mobulid rays.

Paragraph 4) *CPCs shall prohibit their flag vessels, other than those carrying out subsistence fisheries, from retaining onboard, transhipping, landing or storing any part or whole carcass of mobulid rays. CPCs shall ensure that their flag vessels carrying out subsistence fisheries do not tranship, sell or offer for sale any part or whole carcass of mobulid rays*.

Paragraph 11) *CPCs shall ensure that their flag recreational and sport fishing vessels release alive all caught mobulid rays and do not retain onboard, tranship, land, store, sell or offer for sale any part or whole carcass of mobulid rays.*

- Prohibition, applying for all gears:
  - To use gaffes, hooks, or ropes to move or lift mobulid rays,
  - To lift, drag, carry or hold mobulid rays by the horns ("cephalic lobes"), tail, gill slits, mouth, wing, eye or spiracle (opening behind the eye) even by hand,
  - To drag by the wings but lifting by the wings is allowed when no other option is available,
  - To punch holes through the bodies of mobulid rays (for example to pass a cable through for lifting the mobulid ray).

ANNEX I *Minimum Standards for Safe Handling and Live Release Procedures*.

Deadline: Identical to the Compliance Questionnaire deadline.

B.2. - NEW FUNCTIONALITIES

New functionality will be introduced in the e-MARIS campaign "*CoC25 - 2028 assessment*" for the e-DFAD register.

Note that the e-MARIS campaign ''*CoC25 - 2028 assessment*'' benefits from functionalities introduced in the previous campaigns. They are a) the Re-call functionality, b) the Integration functionality, c) e-RAV functionality, d) the e-PSM functionality, and e) the Dynamic table functionality.

B.3. - NEW REQUIREMENTS

One new reporting requirement has been introduced in the e-MARIS campaign *CoC25 – 2028 assessment*, from Resolutions 24/02.

- **Requirement number 2.9b**: Resolution 24/02 on management of drifting fish aggregating devices (FADs) in the IOTC area of competence - Drifting FADs Compliance Register.
  The requirement 2.9b is presented at Annex 1, in PDF format, as it stands in e-MARIS, and is available for consultation in the e-MARIS application - *CoC25 – 2028 assessment campaign*.

Descriptions:

Deadline	Identical to the CQ. Date TBC when date of S31 meeting is set.
Requirement name	2.9b 2402-DFADcompliance CQ
Source	Res. 24/02 (13, 16, 17) & 19/02 (4, 8, 10, Annex III)
Information required	Drifting FADs Compliance Register
Reporting on System/procedure	NO
Reporting data/information/report	YES
Reporting on legislation	NO

Audience	11 CPCs : AUS EUR IDN IRN JPN KEN KOR MUS OMN SYC TZA
Application	This requirement is applicable to CPC flag purse seine vessels fishing on DFADs in the IOTC area of competence as well as associated supply vessels.
Not applicable	NO purse seine vessel (PS) AND no supply vessels (SP) registered on the IOTC Record of Authorised Vessels and fishing on drifting Fish Aggregating Devices (DFADs), equipped with instrumented buoys for the purpose of aggregating IOTC species in the IOTC area of competence
Reminder before deadline	7 days; 1 day
Reminder after deadline	5 days
Recall functionality	NO
e-RAV integration functionality	YES
e-PSM integration functionality	NO
e-FAD integration functionality	YES
SWS integration functionality	NO

(SWS: Statistical working system)

Part B on Data and information reporting:

The reporting under Part B of this requirement is presented below.

e-RAV integration:

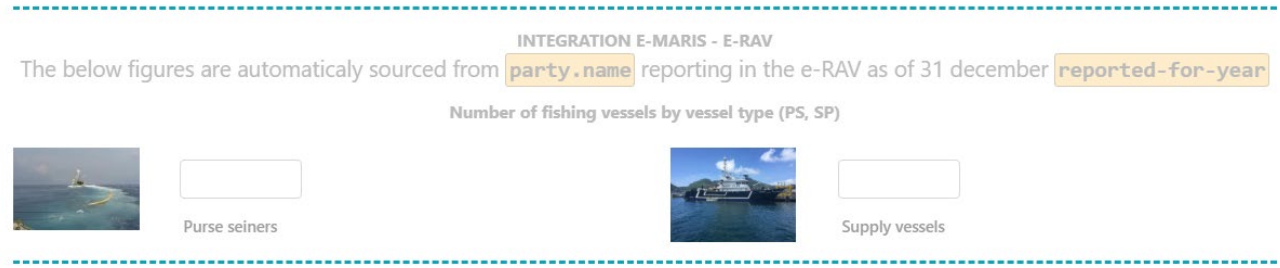

Figure 3: Requirement 2.9b – Integration PS and SP vessel numbers.

e-FAD integration:

Report on instrumented buoys (IB)

Figure 4: Requirement 2.9b – Reporting on instrumented buoys.

INSTRUCTIONS FOR COMPLETION OF THE BELOW TABLES

Click on the button INTEGRATION e-DFAD register

1st row - Populated with information available in the e-DFAD register (if/when available)

2nd row - CPC confirmation is required, select YES or NO (By default YES is selected)

3rd row - if NO is selected at 2nd row, then ENTER the NEW NUMBER and any comment

Figure 5: Requirement 2.9b – Reporting table on instrumented buoys.

e-DFAD integration:

B.2. Report on DFADs

INSTRUCTIONS FOR COMPLETION OF THE BELOW TABLE

Click on the button INTEGRATION e-DFAD register

1st row - Populated with information available in the e-DFAD register (if/when available)
2nd row - CPC confirmation is required, select YES or NO (By default YES is selected)
3rd row - if NO is selected at 2nd row, then ENTER the NEW NUMBER and any comment

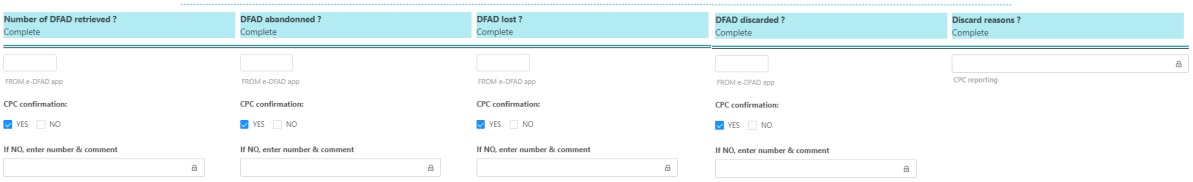

Figure 6: Requirement 2.9b – Reporting table on on DFAD.

CPCs can provide additional information (If none, by default the value is NONE):

Figure 7: Requirement 2.9b – Additional information from CPCs.

RECOMMENDATIONS

That the WPICMM10:

1) **NOTE** the meeting documents IOTC-2027-WPICMM10-16, IOTC-2027-WPICMM10-16_Add1, which describe
   i) The e-MARIS campaign named *CoC25 – 2028 assessment campaign*;
   ii) The new requirements, of the *CoC25 – 2028 assessment campaign,*
   iii) The requirements streamlined of the *CoC25 – 2028 assessment campaign,*
2) **NOTE, REVIEW** and **ENDORSE** the CoC25 campaign and its description,
3) **NOTE, REVIEW** and **ENDORSE** the new requirement: 2.9b and its deadline (Integrated with the e-DFAD application),
4) **NOTE, REVIEW** and **ENDORSE** the requirements streamlined and theirs associated deadlines: 2.9 (R24/02), 3.2 and 3.3 (R19/07), 3.6 (R19/05) and 6.4 (R26/03).

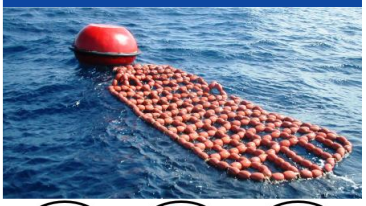
Annex 1

Requirement number 2.9b: Resolution 24/02 on management of drifting fish aggregating devices (DFADs) in the IOTC area of competence - Drifting FADs Compliance Register

Resolution 24/02 on management of drifting fish aggregating devices (FADs) in the IOTC area of competence

Year reported on / Year assessed

2026



Drifting FADs Compliance Register [Objected by OMAN]

Resolution 19/02 Procedures on a fish aggregating devices (FADs) management plan - Number of active DFADs – Drifting FADs Compliance [Remain binding on OMAN]

General Information

24/02 - Year of adoption:2024 --- Date of application:** 2025 **--- Supersedes Resolution 19/02.

Application

This requirement is applicable to CPC flag purse seine vessels fishing on DFADs in the IOTC area of competence as well as associated supply vessels.

- Vessel: **Purse seine vessel / supply vessel**
- Species: **IOTC**
- Area: **IOTC Area of competence**
- Fishing gear: **PS**
- Fishery type: **DFAD fisheries**

RESOLUTION 24/02

Paragraphs 13, 16, 17, 18, 19

13) CPCs shall ensure that the buoy owner notifies, through the DFAD Register and within 72 hours, the IOTC Secretariat when an instrumented buoy is deactivated, including whether the DFAD and instrumented buoy were retrieved. Once the IOTC Secretariat receives this notification, the instrumented buoy shall no longer be considered active. The buoy owner shall record in the DFAD Register when an instrumented buoy has been decommissioned (i.e. the buoy was retrieved and cannot be redeployed or reactivated). If an active buoy attached to a DFAD is deactivated without being retrieved, the buoy owner shall notify the IOTC Secretariat, together with the above-mentioned deactivation notification and through the DFAD Register, the date, time, last location of the buoy and the reasons for deactivating it.
16) CPCs shall ensure that each of their purse seine vessels does not follow more than the following number of instrumented buoys at any one time: a) from 1 January 2026: 250. b) from 1 January 2028: 225.
17) CPCs shall ensure that each of their purse seine vessels does not acquire more than 400 instrumented buoys annually from 1st January 2026.
18) Exceptionally, CPCs with one or two purse seine vessels actively operating in the IOTC area of competence in 2023, for as long as they operate less than three purse seine vessels, shall ensure that each of their purse seine vessels: a) does not follow more than the following number of instrumented buoys at any one time:

i. from 1 January 2026: 280 ii. from 1 January 2028: 255 b) does not acquire more than the following number of
instrumented buoys annually: i. from 1 January 2026: 480 ii. from 1 January 2028: 460
19) Small Island Developing Coastal CPCs shall ensure that each of their purse seine vessels: a) does not follow more than the following number of instrumented buoys at any one time: i. from 1 January 2026: 270 ii. from 1 January 2028: 240 b) does not acquire more than the following number of instrumented buoys annually: i. from 1 January 2026: 440 ii. from 1 January 2028: 420

RESOLUTION 19/02

Paragraphs 4, 8, 10, Annex III.

4. This Resolution sets the maximum number of operational buoys followed by any purse seine vessel at 300 at any one time. The number of instrumented buoys that may be acquired annually for each purse seine
vessel is set at no more than 500. No purse seine vessel shall have more than 500 instrumented buoys (buoy in stock and operational buoy) at any time. An instrumented buoy shall be made operational only when physically present on board the purse-seine vessel to which it belongs or its associated supply or support vessel, and the event shall be recorded in the appropriate logbook, specifying the instrumented buoy unique identification number and the date, time and geographical coordinates of its deployment.
8. Reactivation of an instrumented buoy shall only be possible once it has been brought back to port, either by the vessel tracking the buoy / associated supply or support vessel or by another vessel and has been
authorized by the CPC.
10. CPCs shall require vessels flying their flag and fishing on DFADs to annually submit the number of operational buoys followed by vessel, lost and transferred (total number of DFADs tagged at sea, by deploying an instrumented buoy on a log or another vessel DFAD already in the water).
ANNEX III DATA COLLECTION FOR DFADS - a) For each activity on a DFAD, whether followed by a set or not, each fishing, support and supply
vessel to report the following information: vii. Type of the activity, (visit deployment, hauling, retrieving, loss, intervention to service
electronic equipment).

Objection received from Oman to Resolution 24/02.
Resolution 19/02 remains binding Oman.

Year reported on / Year assessed: 2026

Exclusion / Inclusion

Reason for exclusion: NO purse seine vessel (PS) AND no supply vessels (SP) registered on the IOTC Record of authorised vessels and fishing on drifting Fish Aggregating Devices (DFADs), equipped with instrumented buoys for the purpose of aggregating IOTC species in the IOTC area of competence

CPCs Included (11): AUS EUR IDN IRN JPN KEN KOR MUS OMN SYC TZA

CPCs excluded (21): BDG COM CHN FRAOT IND LBR MDG MYS MDV MOZ PAK PAN PHL SOM ZAF LKA SDN THA UK YEM TWNCHN

Exclude means: *Not applicable for all listed CPCs - Reporting in e-MARIS not possible -> Auto-assessment N/A. CPC excluded will see the requirement (REQ) in the compliance dashboard BUT it will be marked in GREY.*
Include means: *Applicable for all listed CPCs - Reporting in e-MARIS mandatory. CPC included will see the requirement (REQ) in the compliance dashboard BUT it will be marked in BLACK.*

Reporting obligation CR Nº2.9b, CQ

Compliance elements assessed

Note: Your response to this requirement will be used by e-MARIS to compile your country reports: Compliance Report and Compliance Questionnaire (CQ).

(Text of sections/questions in red colour will be in your CQ with your responses - ensure they are completed before submitting).

1. Do you implement the obligations on - DFADs - in 2026 ? (CQ):

Check one of the options

- ☐ NIL Report / Not Applicable - CPC has NO purse seine vessel (PS) AND no supply vessels (SP) registered on the IOTC Record of authorised vessels and fishing on drifting Fish Aggregating Devices (DFADs), equipped with instrumented buoys for the purpose of aggregating target tuna species in the IOTC area of competence in 2026 .
- ☐ NIL Report / Not Applicable - CPC Purse seine fishery is NOT using drifting DFADs in the IOTC Area of Competence in 2026 .
- ☐ NO - Not implemented
- ☐ YES - Implemented

If the option ''NIL Report / Not Applicable'' is selected, the below sections are not required to be completed.

If the option "YES" or "NO" is selected, the below sections are required to be completed.

A - System / procedures

In line with CoC21 Report (para. 94) the completion of Part A and C is NOT REQUIRED, and the completion of Part B is MANDATORY.

94. The CoC21 AGREED that, the IOTC Secretariat shall not require CPC to provide the internal systems and procedures in accordance with paragraph 5.c)ii)2. of Appendix V of the IOTC Rules of Procedure, and national laws & regulations, in accordance with paragraph 5.c)ii)1. of Appendix V of the IOTC Rules of Procedure, to implement reporting obligations that are addressed to CPCs.

B - Reporting data and information
