### **Report of Implementation for the year 2016**

**DEADLINE FOR SUBMISSION OF THE REPORT 17 MARCH 2017**

Reporting CPC: UK(OT)

Date of submission: 13/2/2017

---

*Please NOTE: this document is composed of 3 sections to report on the implementation of IOTC Resolutions*

---

**Part A.** *Describe the actions taken, under national legislation, in the previous year to implement conservation and management measures adopted by the Commission at its Twentieth Session.*

- Resolution 16/01 On an Interim Plan for Rebuilding the Indian Ocean Yellowfin tuna Stock in the IOTC area of competence

In considering the UKOT response to these questions please note the context. The UKOT (BIOT Administration) does not operate a flag registry, does not have a fleet of commercial fishing vessels, and there is no commercial port. The waters of the Territory were declared a Marine Protected Area (MPA) on 1 April 2010 and from 1 November 2010 became a no-take MPA to commercial fishing. An MPA exclusion zone covering Diego Garcia and its territorial waters exists where pelagic and demersal recreational fisheries are permitted. The recreational fishery catches some tuna and tuna like species.

Recognising that yellowfin tuna are currently overfished and subject to overfishing in the Indian Ocean and that Resolution 16/01 seeks to address this, UKOT will require the live-release of all yellowfin tuna caught in its recreational fishery. It is anticipated that this will be effective during 2017.

**The report on methods for achieving the YFT catch reductions has already been provided to the IOTC Secretariat:**

Yes       **Date of reporting (DD/MM/YYYY):** Click here to enter text

- **Action(s) to improve data collection that facilitate improvements in compliance in terms of IOTC mandatory reporting obligations (e.g. development or improvements in the implementation of logbooks, port-based sampling or related fisheries surveys, national observer scheme, vessel registry, electronic data capture, VMS, or on-board electronic monitoring):**

Additional information:

Nevertheless a creel survey has also been implemented which amongst others, will validate data submitted. UKOT meets the mandatory reporting requirements for its recreational fishery and this will continue whilst recreational fishing is permitted within the MPA management regime
