

IOTC-2017-CoC14-08b Add 1[E]

IDENTIFICATION OF REPEATED INFRINGEMENTS UNDER THE REGIONAL OBSERVER PROGRAMME

Prepared by IOTC Secretariat, 15 April 2017

In line with 1) the requirement of IOTC Resolution 14/06 On establishing a programme for transhipment by large-scale fishing vessels, and 2) the recommendation made by the Compliance Committee at its 10th Session:

53. The CoC **RECOMMENDED** that the Secretariat follow, from one year to the next, the potential infringement cases identified so as to allow the CoC to identify repeated cases of infringement.

This document provides a summary of repeated cases of potential infringements of IOTC Resolutions by large-scale tuna longline vessels (LSTLVs) and carrier vessels, as recorded by observers deployed under the at-sea Transhipment Programme during 2016.

Identification of repeated infringements by LSTLVs in 2016.

From the eight fleets (8) which have transhipped in 2016, seven (7) fleets have one or more records of repeated potential infringements. In all, a total of 125 cases of repeated potential infringements were recorded in 2016. The number of LSTLVs with repeated potential infringements in 2016 are presented by fleets in Figure 1.

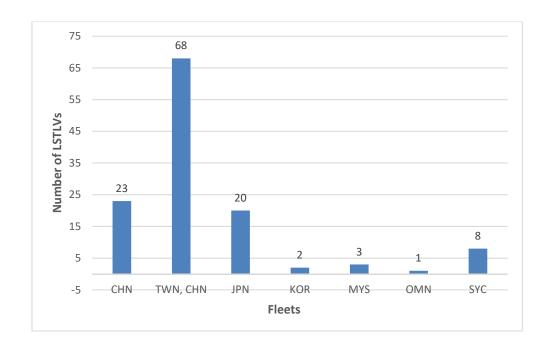

Figure 1: Number of LSTLVs by fleet with repeated potential infringements in 2016.

Identification of repeated potential infringements by LSTLVs in 2016 that have a record of potential infringement in 2015.

Five fleets have LSTLVs with a record of repeated potential infringements in 2016 that have one or more records of potential infringements in 2015:

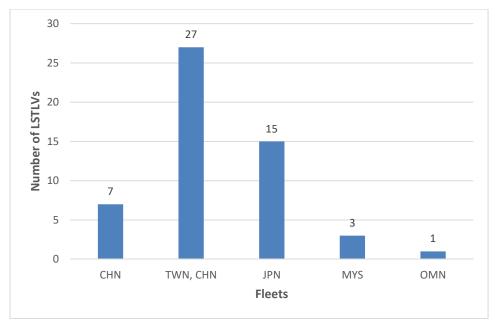

Fleets	Repeated potential infringements in 2016	Record of potential infringements in 2015
CHN	23	7 of 23
TWN, CHN	68	27 of 68
JPN	20	15 of 20
KOR	2	0
MYS	3	3 of 3
OMN	1	1 of 1
SYC	8	0
TZA	0	0

- Twenty three (23) LSTLVs of the fleet of China have been identified as repeated potential offender in 2016. Seven of those 23 vessels have a record of possible infractions in 2015 (30 % re-incidence).
- Sixty eight (68) LSTLVs of the fleet of Taiwan, Province of China, have been identified as repeated potential offender in 2016. Twenty seven of those 68 vessels have a record of possible infractions in 2015 (40% reincidence).
- Twenty (20) LSTLVs of the fleet of Japan have been identified as repeated potential offender in 2016. Fifteen of those 20 LSTLVs have a record of possible infractions in 2015 (75% re-incidence).
- Three (3) LSTLVs of the fleet of Malaysia have been identified as repeated potential offender in 2016. The 3 LSTLVs have a record of possible infractions in 2015 (100% re-incidence).
- One (1) LSTLV of the fleet of Oman has been identified as repeated potential offender in 2016. This LSTLV has a record of possible infractions in 2015 (100% re-incidence).

Two fleets have LSTLVs with a record of repeated potential infringements in 2016, but there is no record of infringement in 2015:

- Two LSTLVs of the fleet of Korea have been identified as repeated potential offender in 2016.
- Eight LSTLVs of the fleet of Seychelles have been identified as a repeated potential offender in 2016.

The number of LSTLVs with repeated potential infringements in 2016 and with a record of potential infringements in 2015 are presented by fleet in Figure 2.

<u>Figure 2:</u> Number of LSTLVs by fleet with repeated potential infringements in 2016 and with a record of potential infringements in 2015.

The list of the LSTLVs with repeated potential infringements in 2016 and record of potential infringements in 2015 are summarized by category of possible infractions, and by fleet, in the Appendix I.

Appendix I
