Report of Implementation for the year 2016 - PREVIEW

## 2016 Implementation Report - Deadline: 16/03/2017

### Part A: New CMMs

Describe the actions taken, under national legislation, in the previous year to implement conservation and management measures adopted by the Commission at its Nineteenth Session.

**Resolution 15/04 Concerning the IOTC record of vessels authorised to operate in the IOTC Area of Competence.**

Deadline: 16/03/2017

Mandatory

Resolution 15/04

This Resolution supersedes Resolution 14/04, which Seychelles has previously reported against. Seychelles's previous submissions remain current. Seychelles continue to maintain an up-to-date register of all Seychelles flagged vessels authorised to fish in the IOTC Area of Competence, including auxiliary, supply and support vessels. lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.

Reporting on IMO number::

To allow the necessary time for CPCs to obtain an IMO number for eligible vessels that do not already have one, paragraph 2.b on IMO number is effective as of 1 January 2016. As of this date, CPCs shall ensure that all their fishing vessels that are registered on the IOTC Record of fishing vessels have IMO numbers issued to them. Paragraph 2.b on IMO number does not apply to vessels which are not eligible to receive IMO numbers.

In assessing compliance with the paragraph above, the Commission shall take into account exceptional circumstances in which a vessel owner is not able to obtain an IMO number despite following the appropriate procedures. Flag CPCs shall report any such exceptional situations to the IOTC Secretariat.
