

## E-training tool descriptor

Supra-category:	IOTC ROS Observer Co-ordinator Training (IOTC ROS OLC)
Category:	Observer recruitment, training, registration and administration (IOTC ROS OLC TR4)
Course:	<i>Standards and procedures for the recruitment, training and registration of observers (IOTC ROS OLC TR4.01, TR4.02 &amp; TR4.03)</i>

### Course Description

The key aspect for building up a team of observers is to recruit persons with the correct academic background and qualities to work at sea. The Observer Coordination Team should have significant input into the recruitment and selection of observers and for some programs may be expected to manage this process.

The purpose of this course is to familiarize participants to the Observer Coordinator Workshops (OCW) with national and international standards and procedures for the recruitment, training and registration of observers.

Participants are to autonomously complete this e-training module in preparation to the interactive practical workshop on Observer Program Development & Logistic Coordination, so they can clearly define CPC Observer Program standards and procedures for the recruitment, training and registration of observers and include this information to *CPCs' Observer programme development & observer logistical co-ordination guide*.
