11.6.		Denial of entry in port	Since 01/03/2011	N/A	N/A	N/A	N/A		

Feedback to Thailand on the level of implementation of IOTC Conservation and Management Measures identified by the CoC09 in 2012.

Feedback: With regards to the level of compliance by Thailand to the decisions of the Commission, the Compliance Committee noted certain issues that required attention. These concerns were communicated to Thailand by the Chair of the Commission in a letter dated 26 April 2012.

<p>The CoC ACKNOWLEDGED the important work that Thailand had undertaken in addressing the concerns raised by CoC08 in 2011, as well as the difficulties that Thailand continues to face in fully implementing a number of the CMMs adopted by the Commission, including the following:</p>
<ul style="list-style-type: none">• Resolution 11/04 (Regional Observer Scheme): Noting the difficulties faced by Thailand in implementing a regional observer scheme as outlined in this Resolution, largely due to national resource limitations and the lack of appropriately trained observers, the CoC ENCOURAGED Thailand to make further improvements in the intersessional period.
<ul style="list-style-type: none">• Resolution 10/08 (list of active vessels): Noting that the Thailand has not reported its list of active vessels for 2011, the CoC URGED Thailand to provide the list as soon as possible.
<ul style="list-style-type: none">• Resolutions 09/06, 10/06, 10/12 (Marine turtles, seabirds, thresher sharks): Noting that Thailand has not implemented requirements of IOTC Conservation and Management Measures on marine turtles, seabirds and thresher sharks into domestic legislation as a binding requirement in a timely manner. The CoC URGED Thailand to transpose those measures into its national legislation.
<ul style="list-style-type: none">• Resolution 10/02 (Minimum reporting requirements): While noting the progress that Thailand has made over the past year in implementing and improving upon data collection and reporting systems, the CoC noted that Thailand is not meeting its obligation with the IOTC data reporting requirements, in particular catch & effort, size frequency data and bycatch data. The CoC URGED Thailand to make further improvements in data collection and reporting during the intersessional period.
<ul style="list-style-type: none">• Resolution 10/11 (On port state measures to prevent, deter and eliminate illegal, unreported and unregulated fishing): The CoC noted the difficulties faced by Thailand with regards to the implementation of the resolution, particularly the need for better cooperation between national ports authorities, and noted that Thailand has not provided the list of the designated ports. The CoC URGED Thailand to implement the port States measures and report the information requested under the resolution during the intersessional period.

Response: Thailand provided its response to the letter of the Chair of the Commission on 16th August, 2012. Not all the concerns were addressed in the response of Thailand.

Current issues on the level of implementation by Thailand of IOTC Conservation and Management Measures identified for discussion in the CoC09 in 2012.

Having reviewed the 2013 Compliance Report for Thailand, the Chair of the Compliance Committee has identified the following significant non-compliance issues for discussion.

<ul style="list-style-type: none">• Has not reported size frequency data, as required by Res. 10/02, for coastal fisheries and longline fishery.
<ul style="list-style-type: none">• Has not provided the mandatory report on transshipments in port, the mandatory report on transshipments carried out at sea, and its feedback on all observer reports which highlight possible infractions, as required by Res. 12/05.
