

Report of Implementation for the year 2014

DEADLINE FOR SUBMISSION OF THE REPORT 26 FEBRUARY 2015

Reporting CPC: Indonesia

Date: 25/02/2015

Please NOTE: this document is composed of 3 sections to report on the implementation of IOTC resolutions

Part A. *Describe the actions taken, under national legislation, in the previous year to implement conservation and management measures adopted by the Commission at its sixteenth Session.*

1. Resolution 14/01 On the removal of obsolete Conservation and Management Measures
No action need to be taken by Indonesia
2. Resolution 14/02 For the conservation and management of tropical tunas stocks in the IOTC area of competence
To keep monitor of the compliance of Indonesia flagged fishing vessels, Indonesia developed an integrated data-base sharing system (DSS). This system integrates several existing system such as Logbook system, VMS system, Fishing Permit system, etc. Eventhough this system is not exclusively for tuna fisheries, but it is very effective to monitor tuna vessels' movement at sea.
3. Resolution 14/03 On enhancing the dialogue between fisheries scientists and managers
Indonesia has adopted a plan to enhance the dialogue between fisheries scientists and managers by:
 - a. participating at the WS between fisheries scientists and managers undertaken by IOTC in Bangkok, Thailand 2015.
 - b. undertaking annual meeting between national fisheries scientists, managers and stakeholder commencing from 2015.
4. Resolution 14/04 Concerning the IOTC record of vessels authorised to operate in the IOTC area of competence^a
Directorate General of Capture Fisheries regularly submits to the Secretariat an updated list of Indonesia flagged vessels authorized to fish in IOTC area of competence.
5. Resolution 14/05 Concerning a record of licensed foreign vessels fishing for IOTC species in the IOTC area of competence and access agreement information^a
This is not applicable for Republic of Indonesia, since based on national policy, foreign flagged vessels not allowed to fish in IEEZ.
6. Resolution 14/06 On establishing a programme for transshipment by large-scale fishing vessels^a

There was a single transshipment at-sea on May 27, 2014 undertaken by Indonesia flagged vessels, Sari MuliaNo.88. Volume and species has been transhipped is 60,000 Kgs of albacore.

Note: ^a indicate that a template report exists for some of the requirements and can be downloaded at <http://www.iotc.org/compliance/reporting-templates>

Part B. *Describe the actions taken, under national legislation, to implement conservation and management measures adopted by the Commission in previous Sessions, and which have not been reported previously.*

Indonesia issued Ministry Regulation No.56/2014 on moratorium on the issuance of fishing permits for all vessels greater than 100 GT including the extension of expired fishing permit. This policy will begin from December 2014 to April 2015 and can be extended.

Indonesia issued Ministry Regulation No. 57/2014 on prohibition of transshipment at-sea within Indonesia national jurisdiction such as IEEZ, Territorial waters and Archipelagic waters.

Indonesia issued Ministry Regulation No. 4/2015 on closure of Banda Sea. Banda sea is a part of Indonesia archipelagic water well known as good fishing ground for tuna which has been exploited since 1970. Around 76% of Indonesia catch of tuna was taken from Indonesia archipelagic waters.

Part C. Data and information reporting requirements for CPCs to be included in this report (please refer to the *section February 2015 of the Guide on data and information reporting requirements for Members and Cooperating Non-contracting Parties*).

- Resolution 01/06 *Concerning the IOTC bigeye tuna statistical document programme*

CPCs which export bigeye tuna shall examine export data upon receiving the import data from the Secretary, and report the results to the Commission annually [*A template report exists*]).

The report has already been provided to the IOTC Secretariat:

Yes **Date of reporting (DD/MM/YYYY):** [Click here to enter text.](#)

No

The report is attached to the implementation report:

Yes No

Additional information:

Tabel :Total Catch Big Eye was taken from IOTC Bigeye Statistical Document, 2014

No.	Month	Catch (Kg)
1	Januari	290.591,50
2	Februari	53.151,99
3	Maret	208.819,14
4	April	12.680,89
5	Mei	9.858,50
6	Juni	150.086,58
7	Juli	535.388,60
8	Agustus	164.209,55
9	September	82.532,63
10	Oktober	189.812,41
11	November	34.077,86
12	Desember	52.433,78
	TOTAL	1.783.643,43

The table shows a total catch of bigeye tuna was taken from validated IOTC Bigeye statistical document program. There was no information regarding the export destination state.

- Recommendation 05/07 Concerning a management standard for the tuna fishing vessels

The CPC flag states which issues licenses to their AFVs should report annually to the Commission all measures taken to meet the minimum management standards when they issue fishing licenses to their “authorised fishing vessels”.

All Indonesia flagged vessels operating within IOTC area of competence are mandatory to meet national requirements as well as IOTC Resolutions.

- Resolution 10/06 On Reducing the Incidental Bycatch of Seabirds in Longline Fisheries

CPCs shall provide to the Commission, as part of their annual reports, information on how they are implementing this measure and all available information on interactions with seabirds, including bycatch by fishing vessels carrying their flag or authorised to fish by them. This is to include details of species where available to enable the Scientific Committee to annually estimate seabird mortality in all fisheries within the IOTC Area of Competence.

In accordance with Ministerial Regulation No. 12/2012, it is mandatory for each tuna longline vessel to implement mitigation measure to seabirds when they are fishing in south of 25oS. The option of night setting, seabird scalling line and weight line has become a requirement. There was no interaction between tuna longline and seabirds reported.

- Resolution 10/10 Concerning market related measures

For CPCs that import tuna and tuna-like fish products, or in whose ports those products are landed or transhipped, should report, a range of information (e.g. information on vessels / owners, product data (species, weight), point of export) annually. *[A template report exists].*

The report on import, landing or transhipment of tuna and tuna-like fish products landed or transhipped in port in 2014 have already been provided to the IOTC Secretariat:

Yes Date of reporting (DD/MM/YYYY): [Click here to enter text.](#)
No

The report on import, landing or transhipment of tuna and tuna-like fish products landed or transhipped in port in 2014 is attached to the implementation report:

Yes No

Additional information:

- Resolution 11/04 On a Regional observer scheme

CPCs shall provide to the Executive Secretary and the Scientific Committee annually a report of the number of vessels monitored and the coverage achieved by gear type in accordance with the provisions of this Resolution.

Indonesia has provided a report of observer on-board to the IOTC Scientific Committee Meeting.

- Resolution 12/04 On marine turtles

CPCs shall report to the Commission, in accordance with Article X of the IOTC Agreement, their progress of implementation of the FAO Guidelines and this Resolution.

In accordance with Ministerial Regulation No. 12/2012, it is mandatory for each tuna longline vessel to carry on-board a necessary equipment to appropriately release of marine turtle caught incidentally, such as de-hooker, line-cutting and scope net. It is reported by observer on-board that from 26 marine turtle were caught, of which 17 individuals were live released.

- Resolution 14/06 On establishing a programme for transshipment by large-scale fishing vessels

Each flag CPC of the LSTV shall include in its annual report each year to IOTC the details on the transshipments in ports by its vessels (Name of LSTV, IOTC Number, name of carrier vessel, species and quantity transhipped, date and location of transshipment). *[A template report exists].*

The details on transshipment in ports for 2014 have already been provided to the IOTC Secretariat:

Yes **Date of reporting (DD/MM/YYYY):** [Click here to enter text.](#)

No

The details on transshipment in ports for 2014 are attached to the implementation report:

Yes

No

Additional information:

There was no transshipment in port on 2014

- Resolution 12/12 To Prohibit the use of large-scale driftnets on the high seas in the IOTC Area

CPCs shall include in their Annual Reports a summary of monitoring, control, and surveillance actions related to large-scale driftnet fishing on the high seas in the IOTC area of competence.

There is no Indonesia flag vessel authorised to use large-scale driftnets (more than 2.5 Km length) both on the high seas as well as within Indonesia national jurisdiction.

- Resolution 13/04 On the conservation of cetaceans

CPCs shall report, in accordance with Article X of the IOTC Agreement, any instances in which cetaceans have been encircled by the purse seine nets of their flagged vessels.

There was no cetacean caught was reported and landed.

- Resolution 13/05 On the conservation of whale sharks (*Rhincodon typus*)

CPCs shall report, in accordance with Article X of the IOTC Agreement, any instances in which cetaceans have been encircled by the purse seine nets of their flagged vessels.

There was no whale shark caught was reported and landed

- Resolution 14/05 Concerning A Record Of Licensed Foreign Vessels Fishing For IOTC Species In The IOTC Area Of Competence And Access Agreement Information

For Government to Government access agreement in existence prior to the entry into force of this resolution, where coastal CPCs allow foreign-flagged vessels to fish in waters in their EEZ in the IOTC Area for species managed by IOTC through a CPC-to-CPC agreement, CPCs involved in the referred agreement:

- Shall submit copy of the access agreement,
- Shall submit information concerning these agreements (paragraphs 3a, b, c, d, e, f, g),

A report template exists and can be requested at secretariat@iotc.org

Not applicable to Indonesia, since based on national legislation, foreign flagged vessel is not allowed to fish within the jurisdiction of Indonesia.
