E-PSM APPLICATION

Welcome in the e-PSM Application. Made of three independent modules, the e-PSM application has been designed and developed to facilitate and assist the Contracting Parties and Cooperating non Contracting Parties (CPCs) of the IOTC to implement the IOTC Resolutions related to Port State Measures (PSM):

- [Resolution 10/11 On port state measures to prevent, deter and eliminate illegal, unreported and unregulated fishing](#)
- [Resolution 05/03 Relating to the establishment of an IOTC programme of inspection in port \(Landing in port by foreign vessels\)](#),
- [Resolution 14/06 On establishing a programme for transshipment by large-scale fishing vessels \(Annex 1 - Conditions relating to in-port transshipment by LSTVs\)](#).

Module 1: e-PSM Forms and Processes

The first module, e-PSM forms and processes, is a working and communication platform for the fishing industry, the port States CPCs, the flag State CPCs to implement their responsibilities in terms of Resolution 10/11. As the first step of the PSM process, this module allows the fishing industry to submit electronically to port State CPCs an advance request for entry into port (AREP) to decide whether to authorise or deny the entry of the vessel into its port and communicate this decision to the vessel or to its representative.

[Create an Advance Request for an Entry in Port](#)

[Log in PSM Form and Processes](#) (Access restricted to CPCs and authorised users)

Module 2: e-PSM Library

The second module, e-PSM library, is an information sharing platform to IOTC CPCs where PSM related information can be found, such as:

- Information on designated ports, designated competent authority in each port State CPC and prior notification period established by each CPC,
- e-PSM application user guides (Industry guide, port State CPCs guide and flag State CPCs guide),
- PSM forms created in the Module 1: Advance Request of Entry into Port (AREP) and Port Inspection Reports (PIR) (Restricted access),
- Documents, technical reports, meeting reports, video on various fisheries topics (e.g. tuna fisheries management, fisheries Monitoring Control and Surveillance (MCS) and port State measures, etc...)
- Internet link to useful internet resources (e.g. vessel movement information, port information, etc...).

[Access the public area](#)

[Log in e-PSM Library](#) (Access restricted to CPCs)

Module 3: e-PSM Reporting

The third module, e-PSM reporting, is a reports building tool where reports related to the activities of foreign vessels in its port or activities of its flagged vessels in foreign ports can be generated. This module allows CPCs to generate the mandatory report required by Resolution 05/03 (Details of landing of foreign vessels in ports), as well as the mandatory report required by Resolution 14/06 (Details of transshipments of flag vessels in foreign ports).

[Log in e-PSM Reporting](#) (Access restricted to CPCs)

2 Captcha page

ADVANCED REQUEST FOR ENTRY IN PORT (AREP)

Captcha page

A CAPTCHA (an acronym for "Completely Automated Public Turing test to tell Computers and Humans Apart") is a type of challenge-response test used in computing to determine whether or not the user is human.

Enter captcha

3 Advance request to enter port (AREP)

3.1 Step 1 - Search

ADVANCED REQUEST FOR ENTRY IN PORT (AREP)

Vessel Search

In this step, we need to identify your vessel. Please use the following search engine to select your vessel. If your vessel does not appear in the results, you can use the button "create vessel" to add your vessel on our database.

Vessel directory search

Please use the following table to identify your vessel. you can query IOTC database to lookup for your vessel by it's name, call sign, IOTC number, or by any keyword to refine the results.

Vessel Identification

This form has been pre-filled with the information from the IOTC Record of Authorised Vessels. Please, verify the information and complete the missing fields and complete the information on VMS (National, RFMOs or No VMS), then select the type of VMS onboard the vessel and transmitting to the FMC of your flag State.

Name and Type

Name of the vessel

CAP SAINT VINCENT

Enter the name of the vessel as written in your National Certificate of Registration or your National Authorisation to Fish. Eg: Bemba.

Flag

France (EU)

Select a country in the list. Eg: Australia.

Type of the vessel

Purse seiners

Select the type of the vessel in the list. Eg: Longliners.

Gear type

None selected

Identification Numbers

IOTC Identification number

IOTC

Enter the IOTC number allocated to your vessel, by which the vessel is registered / authorised by IOTC. Eg: 005514 (8 digits).

International Radio Call Sign

FPP

Enter the International radio call sign (IRCS) of the vessel. Eg: TTFC

Port of registration

Unknown

Port of registration

Maritime mobile service identity number

Enter the Maritime Mobile Service Identity number (MMSI) of the vessel. Eg: 123456789

External Identification Number

Enter one external identification number as displayed on the superstructure or the hull of the vessel (Vessel name, International Radio Call Sign (IRCS), IMO number, National registration number (NIRN), Port of registration, fishing licence number). Eg: Durban (Port of Registration)

Certificate of registry identification number (or national registration number)

911289

Enter the national registration number (NIRN) of the vessel. Eg: FRA0005544300.

IMO Identification number

IMO 9225536

Enter (if available) the International Maritime Organisation (IMO) number / Lloyd's Register identification number of the vessel. Eg: 1234567 (7 Digits)

Dimensions

Length overall

67.3

Enter the length overall of the vessel. Eg: 64,6

Beam

Enter the beam of the vessel. Eg: 12,6

Draft

Enter the draft of your vessel. Eg: 6,6

VMS

VMS onboard the vessel

☐ Yes : national☐ Yes : RFMO(s)☐ No

Record if the vessel has a VMS fitted on board the vessel. Tick the appropriate box.

VMS type

☐ Argos☐ Inmarsat☐ Inmarsat C☐ Inmarsat D/D+☐ Iridium☐ No VMS☐ Orbcomm☐ Qualcomm☐ VMS Unspecified type☐ Other

The type of VMS. Example: INMARSAT-C, Argos, Eutelsat, Iridium

Inmarsat

Enter the INMARSAT number of the vessel. Eg: 322626520 (9 digits)

Next step

3.3 Step 3 - Contacts

PREVIEW

SUBMISSION

Authorisations & Catches

Complete the information on port of call, date of arrival, fishing and transshipment authorisation(s), transshipment information (if any), total catch on board and catch to be offloaded.

Purpose and port of call

Record the reasons for the vessel requesting port access: transshipping, packaging, processing of fish, refueling, resupplying, maintenance, dry-docking, force majeure.

Intended port of call

Archipelagic Fishing Port Palabuhanratu-West Java

Select the intended port of call from the list. Eg: Cap Town.

Estimated local date and time of arrival

2015-06-08 10:00

Select the intended port of call from the list. Eg: Cap Town.

Port of last port call

Enter the name of the last port visited by the vessel. Eg: Port Louis.

Date of last port call

Select the date of the last port call from the calendar.

☐ **Observer on board**

Tick the box if an observer is present on board the vessel.

Purposes

☐ Change Crew
☐ Drydocking
☐ Force Majeure
☐ Inspection
☐ Landing
☐ Maintenance
☐ Packaging
☐ Processing Fish
☐ Refueling
☐ Resupplying
☐ Transshipment
☐ Other

Tick one or several reasons. Eg: Landing, Refueling.

Relevant Fishing authorisation(s)

There are two categories of fishing authorisation:

- Authorisation to Fish (ATF) issued by the flag State to fish on the high seas within the area of a RFMO.
- Coastal State Fishing License issued by a coastal States to fish within their waters (EEZ or fishing zone).

Record details for each of the fishing authorisation that corresponds to the areas, catch and gear on-board with respect to: Identifier number, Issuing authority, validity, fishing areas, species and gear(s) authorised.

Identifier	Issued by	Valid from	Valid to	Fishing area(s)	Species	Gear	Attachment	Type	Action
Add Relevant Fishing authorisation									

Relevant Transshipment authorisation(s)

Provide the information on your Transshipment Authorisation issued by your flag State and information on any Transshipment Authorisation(s) issued by a Coastal State(s), if Transshipment(s) has occurred in the waters of a Coastal State.

Identifier	Issued by	Valid from	Valid to	Attachment	Action
Add relevant transshipment authorisation					

Transshipment information

This section of the form should be filled when the vessel requesting entry into port took on board catches from donor vessel(s) or transhipped catches to a receiving vessel (Carrier vessel) at sea.

Date	Port/Sea	Location	Vessel name	Flag	Id number	Species	Product form	Catch area(s)	Quantity	Action
Add transhipped species/product										

Evaluation of catch to be offloaded

Record the quantity (kg) of catch by species declared to be offloaded and the catch offloaded. For offloading into a container use the field transshipment. Detail must include: Species, Product form, Catch area(s) and quantity to be offloaded (declared by the master) and quantity offloaded (As verified by the inspectors during the inspection).

Species	Product form	Catch area(s)	Quantity on board declared (kg)	Quantity to be landed (kg)	Quantity to be Transhipped (kg)	Action
Add Evaluation of offloaded catch

Automatically pre-filled by the application. Eg: AB 299839

Name of principal inspector

Select the name of the principal inspector from the list. Eg: Olivier BAIL.

Principal inspector email

Automatically pre-filled by the application. Eg: LucasF@daff.gov.za

Port of inspection

Select the port of inspection from the list. Eg: Cap Town.

Commencement of inspection

Select the date and time of commencement of the inspection from the calendar.

Completion of inspection

Select the date and time of completion of the inspection from the calendar.

Purpose and port of call

Record the reasons for the vessel requesting port access: transshipping, packaging, processing of fish, refueling, resupplying, maintenance, dry-docking, force majeure.

Port of last port call

Enter the name of the last port visited by the vessel. Eg: Port Louis.

Date of last port call

Select the date of the last port call from the calendar.

Purposes

- ☒ Change Crew
- ☐ Drydocking
- ☐ Force Majeure
- ☒ Inspection
- ☐ Landing
- ☐ Maintenance
- ☐ Packaging
- ☐ Processing Fish
- ☐ Refueling
- ☐ Resupplying
- ☐ Transshipment
- ☐ Other

Tick one or several reasons. Eg: Landing, Refuelling.

Status in RFMO Including any IUU vessel listing

Record the registration status of the vessel in RFMO and any IUU vessel listing with respect to: vessel identifier, RFMO, Flag State status.

Vessel Identifier	RFMO	Flag State Status	Vessel on authorised list	Vessel on IUU List	Action
-------------------	------	-------------------	---------------------------	--------------------	--------

Add Status in RFMO

Relevant Fishing authorisation(s)

There are two categories of fishing authorisation:

- Authorisation to Fish (ATF) issued by the flag State to fish on the high seas within the area of a RFMO.
 - Coastal State Fishing License issued by a coastal States to fish within their waters (EEZ or fishing zone).
- Record details for each of the fishing authorisation that corresponds to the areas, catch and gear on-board with respect to: identifier number, issuing authority, validity, fishing areas, species and gear(s) authorised.

Identifier	Issued by	Valid from	Valid to	Fishing area(s)	Species	Gear	Attachment	Source (Src)	Objection	Comments	Type	Action
------------	-----------	------------	----------	-----------------	---------	------	------------	--------------	-----------	----------	------	--------

Add Relevant Fishing authorisation

Relevant Transhipment authorisation(s)

Provide the information on your Transhipment Authorisation issued by your flag State and information on any Transhipment Authorisation(s) issued by a Coastal State(s), if Transhipment(s) has occurred in the waters of a Coastal State.

Identifier	Issued by	Valid from	Valid to	Attachment	Source (Src)	Objection	Comments	Action
------------	-----------	------------	----------	------------	--------------	-----------	----------	--------

Add relevant transhipment authorisation

Transhipment information

This section of the form should be filled when the vessel requesting entry into port took on board catches from donor vessel(s) or transhipped catches to a receiving vessel (Carrier vessel) at sea.

Date	Port/Sea	Location	Vessel name	Flag	Id number	Species	Product form	Catch area(s)	Quantity	Source (Src)	Objection	Comments	Action
------	----------	----------	-------------	------	-----------	---------	--------------	---------------	----------	--------------	-----------	----------	--------

Add transhipped species/product

Evaluation of catch to be offloaded

Record the quantity (kg) of catch by species declared to be offloaded and the catch offloaded. For offloading into a container use the field transhipment. Detail must include: Species, Product form, Catch area(s) and quantity to be offloaded (declared by the master) and quantity offloaded (As verified by the inspectors during the inspection).

Species	Product form	Catch area(s)	Quantity on board declared (Kg)	Quantity to be landed (Kg)	Quantity to be Transhipped (Kg)	Quantity Landed verified (kg)	Quantity Transhipped verified (kg)	Objection	Comments	Action
---------	--------------	---------------	---------------------------------	----------------------------	---------------------------------	-------------------------------	------------------------------------	-----------	----------	--------

Add Evaluation of offloaded catch

Catch retained on Board

Record the catch retained on board after the offloading operation(s). Detail must include: Species, Product form, catch area and quantity declared (by the master) and quantity retained on board (As verified by the inspectors).

Species	Product Form	Catch Area(s)	Quantity Declared	Quantity Retained	Objection	Comments	Action
---------	--------------	---------------	-------------------	-------------------	-----------	----------	--------

Add catch

Examinations

Record the result of the inspection with regards to the examination of the logbook, compliance with applicable documentation scheme, compliance with applicable trade information scheme(s) and examination of the fishing gear(s).

Examination of logbook(s) and other documentation

☐ Yes ☒ No

Tick Yes or No, depending on whether the logbooks were examined and record comment(s) by the inspector

Compliance with applicable trade information scheme(s)

☐ Yes ☒ No

Tick Yes or No, depending on whether the vessel is compliant with applicable trade information scheme(s) and record comment(s) by the inspector.

Compliance with applicable catch documentation scheme(s)

☐ Yes ☒ No

Tick Yes or No, depending on whether the vessel is compliant with relevant catch documentation schemes and record comment(s) by the inspector.

Types of gear used

None selected -

Select one or several fishing gears.

Gears examined in accordance with paragraph e) of annex 2

☐ Yes ☒ No

Tick Yes or No, depending on whether the inspector(s) examined the fishing gear(s) following the procedure established in Annex 2 and record comment(s) by the inspector.

Findings by inspector

Findings by inspector

Record of all relevant facts and findings as determined by the inspector(s) during the inspection.

Comments by master

Record any comments made by the master regarding the development of the inspection, the inspectors' findings or the infringements alleged.

Apparent infringement(s) noted including reference to relevant legal instrument(s)

Report apparent infringement(s)

Save and quit

SUBMISSION

Complete the request for additional information for PIR (RAI-PIR)

Following the inspection of the vessel and before authorising the vessel to use port services and offload its catches, you can request additional information to the competent authority of the flag State of the vessel or the representative of the vessel or a coastal State to confirm that the fish on board the vessel was taken in accordance with applicable requirements of the IOTC.

Communicating entities

By sending this request, you will start a communication thread between the port State and the Flag State of the vessel or a vessel representative or a coastal State. An email will be sent to both entities whenever a document has been posted, or a new document is requested.

11 Port Activity Dashboard (PAD - for Port State)

PORT ACTIVITY DASHBOARD

Archipelagic Fishing Port Palabuhanratu-West Java

In the Port Activity Dashboard for port State (PAD PS), you can view and access e-PSM files of foreign vessels calling at your designated port(s) and e-PSM files that have been shared with you. An e-PSM file is generally created when a vessel submit an advance request to enter port (AREP). A port State can create an e-PSM file if an advance request to enter port has not been submitted.

[Create a new e-PSM file](#)

Search e-PSM Files

You can search an e-PSM file by using the search engine below. You can query the E-PSM files database by entering any keywords (IOTC number, vessel name, National Registration Number (NRN), International Radio Call Sign (IRCS), International Maritime Organisation (IMO) number, gear), by type of vessel, by flag and by date (From/To). You can narrow your search by selecting "Active file only", only the e-PSM files active will be displayed.

Keywords		Type of vessel
		-
