*the list of recommendations as its own, while taking into account the range of issues outlined in this Report (S19) and incorporated within Conservation and Management Measures adopted during the Session and as adopted for implementation as detailed in the approved annual budget and Program of Work.*

Para. 12. *The Commission **NOTED** some minor improvements in the quantity of fisheries statistics available to the SC and its Working Parties in 2014 but reiterated its concerns about the lack of fisheries data from some gears and fleets for target and bycatch species. Specifically, many fisheries statistics are missing or incomplete for some industrial and artisanal fisheries.*

### **Meeting Participation Fund**

Para. 37. *The Commission **NOTED** that the MPF was used to fund the participation of a reduced number of national scientists to the Working Parties in 2014 (49 in 2014; 58 in 2013; 42 in 2012), all of which were required to submit and present a working paper at the meeting.*

Para. 38. *The Commission **NOTED** that at its 2014 meeting, the Scientific Committee had recommended that the Meeting Participation fund be maintained into the future and increased back to its original allocation of \$200,000 per year (see recommendations SC17.34, para. 119). As per the IOTC Rules of Procedure (2014), the SC had reminded the IOTC Secretariat that the MPF budget should be spent at the ratio of 75:25 (science: non-science meetings) which would equate to US\$150,000 science: US\$50,000 non-science meeting.*

Para. 39. *The Commission **AGREED** that the MPF budget remains important and therefore provisions according to the estimated needs will be integrated into the budget.*

### **Consultants**

Para. 40. ***NOTING** the Scientific Committee's attempts to prioritise the various projects and consultancies which it had requested funding for in 2016, in particular, that the High priority projects were those which it felt must be undertaken in 2016, the Commission **REQUESTED** that only those High priority projects listed in the Scientific Committee budget be funded by the Commission's regular budget, with exceptions detailed in other areas of the S19 report.*
