

**WORKING PARTY ON THE IMPLEMENTATION OF CONSERVATION AND MANAGEMENT MEASURES
(WPICMM)**

SUBMITTED BY: SEYCHELLES, 20 APRIL 2016

Explanatory Memorandum

The IOTC is an intergovernmental organisation established under article XIV of the FAO constitution. The IOTC agreement was concluded in 1993 and entered in force in 1998. The IOTC is mandated to manage tuna and tuna-like species in the Indian Ocean and adjacent seas with primary objective the conservation and optimum utilisation of the stocks for long term sustainability.

Between 1998 and 2003, the Contracting Parties (Members) of the IOTC dedicated most of their efforts to scientific works to manage the tuna and tuna-like resources. However, in 2003, the focus was expanded to include the compliance aspects of this tRFMO, specifically with the creation of a Compliance Committee. Subsequently, by 2008, a compliance section within the IOTC Secretariat had also been created to assess and review all compliance aspects related to the implementation of the IOTC Conservation and Management Measures (CMMs) with the objective to improve compliance by IOTC Contracting Parties with regards to the implementation of IOTC CMMs.

The Compliance Committee is held annually to assess progress in ensuring compliance with the IOTC Agreement and CMMs, development of new ideas and CMMs to enhance the sustainable management of the IOTC fisheries, as well as determining the actions to take regarding vessels that have allegedly conducted IUU fishing activities. The work of this Committee has become onerous for the CPCs in the time available to it and there is simply too much work to technically address.

Consequently, to alleviate the workload, we are proposing a Working Party on the Implementation of Conservation and Management Measures (WPICMM).
