¹ Provisional until approval of the final version of the S20 report

On the prohibition of the use of aircrafts and unmanned aerial vehicles as fishing aids

*Para. 117. The Commission **ADOPTED** Resolution 16/08 On the prohibition of the use of aircrafts and unmanned aerial vehicles as fishing aids. This Resolution prohibits the use of aircrafts and unmanned aerial vehicles as fishing aids on flagged fishing vessels, support and supply vessels by Contracting Parties and Cooperating Non-Contracting Party (collectively CPCs).*

On the use of artificial lights to attract fish

*Para. 116. The Commission **ADOPTED** Resolution 16/XX On the use of artificial lights to attract fish. This Resolution prohibits fishing vessels and other vessels including support, supply and auxiliary vessels flying the flag of an IOTC Contracting Party or Cooperating Non-Contracting Party (collectively CPCs) from using, installing or operating surface or submerged artificial lights for the purpose of aggregating tuna and tuna-like species beyond territorial waters.*

On the implementation of a pilot project in view of promoting the Regional Observer Scheme of IOTC

*Para. 113. The Commission **ADOPTED** Resolution 16/04 On the implementation of a pilot project in view of promoting the Regional Observer Scheme of IOTC. This Resolution creates a pilot project aiming to enhance the implementation of the Resolution 11/04 on a Regional Observer Scheme and to raise the level of compliance to the implementation of Resolutions 15/01 and 15/02, respectively on the recording of catch and effort data by fishing vessels in the IOTC area of competence and on mandatory statistical reporting requirements for IOTC Contracting Parties and Cooperating non-Contracting parties (CPCs).*

On the conservation and management of neritic tunas in the IOTC Area of Competence

*Para. 113. The Commission **CONSIDERED** a proposal on the conservation and management of neritic tunas in the IOTC Area of Competence (IOTC–2016–S20–Prop E), and while there was some support from CPCs, agreement could not be reached on the implementation of the proposal, which was subsequently deferred until the next meeting of the Commission.*

On the conservation and management of IOTC species

*Para. 131. The Commission **CONSIDERED** a proposal on the conservation and management of IOTC species (IOTC–2016–S20–Prop G), which detailed two options with the main objective of decreasing the fishing pressure on Yellowfin Tuna (*Thunnus albacares*), and which will also benefit the status of the following overfished stocks: Striped Marlin (*Tetrapturus audax*), Black Marlin (*Makaira indica*), Blue Marlin (*Makaira nigricans*), Indo-Pacific Sailfish (*Istiophorus platypterus*), Longtail Tuna (*Thunnus tonggol*) and Narrow-based Spanish Mackerel (*Scomberomorus Commerson*) in the IOTC Area of competence. Following discussions with CPCs, the proposal was split into three individual proposals with catch reduction measures specific to the following species: Prop-G-A (Yellowfin tuna), Prop-G-B (billfish species), and Prop-G-C (neritic tunas). The proposal to reduce catches of Yellowfin tuna (Prop-A) was eventually withdrawn, in favour of the adoption of (IOTC-2016-S20-PropF); while the proposals for Prop-G-B and Prop-G-C, were deferred until the next meeting of the Commission.*

The complete report of the 20th Session of the Indian Ocean Tuna Commission is not yet available for download from the IOTC website but will be made publically available shortly after the final version has been agreed by correspondence.
