<sup>2</sup> Provisional until approval of the final version of the S20 report

**Sharks**

Para. 22. The Commission **NOTED** the standing of catch statistics for the main species of sharks, by major fisheries (gears), and **EXPRESSED** concern over the lack of information submitted by CPCs on total catches, discards, catch and effort and size data of sharks in the IOTC database, despite their mandatory reporting status.

Para. 23. The Commission strongly **ENCOURAGED** CPCs comply with IOTC data requirements as requested per Resolution 15/01 and 15/02, given the gaps in available information in the IOTC database and the importance of basic fishery data in order to assess the status of stocks and for the provision of sound management advice.

**On the use of artificial lights to attract fish**

Para. 116. The Commission **ADOPTED** Resolution 16/XX On the use of artificial lights to attract fish. This Resolution prohibits fishing vessels and other vessels including support, supply and auxiliary vessels flying the flag of an IOTC Contracting Party or Cooperating Non-Contracting Party (collectively CPCs) from using, installing or operating surface or submerged artificial lights for the purpose of aggregating tuna and tuna-like species beyond territorial waters.

**On the implementation of a pilot project in view of promoting the Regional Observer Scheme of IOTC**

Para. 113. The Commission **ADOPTED** Resolution 16/04 On the implementation of a pilot project in view of promoting the Regional Observer Scheme of IOTC. This Resolution creates a pilot project aiming to enhance the implementation of the Resolution 11/04 on a Regional Observer Scheme and to raise the level of compliance to the implementation of Resolutions 15/01 and 15/02, respectively on the recording of catch and effort data by fishing vessels in the IOTC area of competence and on mandatory statistical reporting requirements for IOTC Contracting Parties and Cooperating non-Contracting parties (CPCs).

The complete report of the 20<sup>th</sup> Session of the Indian Ocean Tuna Commission is not yet available for download from the IOTC website but will be made publically available shortly after the final version has been agreed by correspondence.
