E-MARIS VALIDATION WORKSHOP

E-MARIS VALIDATION WORKSHOP

CPC-SUGGESTED FEATURES

CPC-SUGGESTED FEATURES

- ▶ The system should give a reminder or notification about finishing of work sign off
- ▶ The system Should sign out automatically after certain hours
- ▶ Each CPC should have 1 or 2 administrators created by the Secretariat, who would be able to create/manage CPC user accounts
- ▶ CPC user accounts should be assigned roles (compliance, science, validation)
- ▶ Replying to notifications/feedback right from e-mail client

CPC-SUGGESTED FEATURES

- ▶ Notification read status should be per user account, even if notification is sent to all users of a CPC
- ▶ Requirements should allow for keywords to be assigned for filtering/searching
- ▶ Requirements should be assigned a compliance/science category, to match the CPC user roles
- ▶ CPCs should have access to the reporting and compliance history of all CPCs
- ▶ CPCs should have access to a live dashboard of all CPC reporting status (it would show number of requirements applying vs not applying)

CPC-SUGGESTED FEATURES

- ▶ Requirement deadline should also show the number of days remaining to report
- ▶ Any information submission should allow to be exported as PDF/Word before/after being submitted, to share it with colleagues or managers
- ▶ On submission of a report, there should be an option to add a list of email addresses to which the PDF of the report would be sent
- ▶ The system should provide for a «validator" role that would have to approve any submission before it is actually published in the system
- ▶ Annual reports should not be submitted automatically when the deadline is reached
