

IMPLEMENTATION OF REPORTING OBLIGATIONS OF NOMINAL CATCH DATA – RESOLUTION 18/07

Prepared by: IOTC Secretariat, 11 May, 2019

PURPOSE

To provide the Compliance Committee with an update on the current level of implementation of IOTC Resolution 18/07 on *Measures applicable in case of non-fulfilment of reporting obligations in the IOTC*.

Paragraph 3. Following the review carried out by the Compliance Committee, the Commission at its annual session, according to the guidelines attached (Annex I), and after having given due consideration to the relevant information provided by the concerned CPCs in these cases, may consider to prohibit CPCs that did not report nominal catch data (exclusively), including zero catches, for one or more species for a given year, in accordance with the Resolution 15/02, paragraph 2 (or any subsequent revision), from retaining such species as of the year following the lack or incomplete reporting until such data have been received by the IOTC Secretariat. Priority shall be given to situations of repeated non-compliance. Any CPC unable to meet these reporting obligations owing to engagement in civil conflict shall be exempt from this measure. The CPC concerned will work with the IOTC Secretariat to identify and implement possible alternative methods for data collection, using established FAO data collection methods.

BACKGROUND

IOTC Circular 2018-11, sent out on March 9th 2018, reminded CPCs to provide information on their recorded catches, including zero-catches or non-applicability of reporting requirements, by gear and species for the year 2016.

In response:

- Five Members (European Union (EU-France, EU-Portugal, EU-Spain and EU-United Kingdom), United Kingdom (Overseas Territory), Japan, Mauritius and Madagascar) have provided information to the IOTC Secretariat using the dedicated data reporting template;
- Four reporting flags, from three Members (European Union (EU-France and EU-Spain), United Kingdom (Overseas Territory) and Japan) have provided complete information;
- Four reporting flags, from three Members (European Union (EU-Portugal and EU-United Kingdom), Mauritius and Madagascar) have provided incomplete information, lacking in particular the explicit declaration of non-applicability of reporting requirements for some species and gear for which neither positive nor zero catches were recorded.

In its deliberations in 2018, the Compliance Committee **RECOMMENDED** that the Secretariat provide a list of CPCs not meeting the reporting requirements for nominal catch per species and gears for future meetings.

DISCUSSION

IMPLEMENTATION OF REPORTING OF CATCH DATA

In accordance to IOTC Resolution 18/07 (previously Resolution 16/06), starting in 2016 and annually thereafter, CPCs are required to submit total catch data to the IOTC Secretariat in accordance with the Resolution 15/02 and Scientific Committee template, including zero catches.

For the 2018 reporting cycle, that is, for data pertaining to the year 2017, only two CPCs (Malaysia and South Africa) reported the complete suite of information, by species and gear type, in accordance to IOTC Resolutions 15/01, 15/02 and 18/07 (for zero catches). Two CPCs (Liberia and Senegal, both not situated in the IOTC Area) are known to have not have operated fishing vessels in the IOTC Area, in 2017. Therefore, the remaining 29 CPCs are at fault with catch reporting obligations, including reporting on zero catches. Table 1, below, summarises the number of CPCs reporting positive nominal catch data by gear and species for 2017. Appendix 1, provide individual CPCs record of reports for nominal catch data by gear and species, for 2017.

RECOMMENDATION

- That the CoC16 **NOTE** that only two CPCs (Malaysia and South Africa) reported the complete suite of information in accordance to IOTC Resolutions 15/01 (for species to report), 15/02 (mandatory statistics) and 18/07 (for zero catches).
- That the CoC16 **FURTHER NOTE** that two CPCs (Liberia and Senegal, both not situated in the IOTC Area) did not operate any fishing vessel in the IOTC Area in 2017.
- That the CoC16 **RECOMMENDS** to the Commission the course of action, as provided under IOTC Resolution 18/07, for CPCs with a finding of "missing" or "incomplete" data submissions.

Table 1. The number of CPCs reporting positive nominal catch data by gear and species, for 2017.
