Summary

The objective of the guide is to provide a working document for contracting Parties (Members) and cooperating non-contracting Parties (collectively referred to as “CPCs”) to use in the implementation of the IOTC Resolutions while reporting data and information to the Commission in the e-MARIS application. The content is divided into five sections.

The first section provides a detailed overview of what data and information to report on a monthly basis, in accordance with the specified deadline.

The second section presents a detailed overview of what data and information must be reported at the same deadline as the Implementation Report.

The third section guides CPCs on data and information which must be reported on an event basis (no fixed date for the deadline is specified).

The last two sections list obligations for vessels and prohibitions or bans for vessels.

At the end of the Guide a register of submissions and a notebook are provided.

Introduction to the guide

Please **NOTE**: the exact requirements are described in the Resolutions which are available from <https://www.iotc.org/cmms> .

All data should be submitted in the e-MARIS application.

All template reports are also available in e-MARIS.

Where it is mentioned “A report template exists” it can be downloaded at the direct link provided or at

<http://www.iotc.org/compliance/reporting-templates>

If e-MARIS is not available, submit by e-mail to IOTC-Secretariat@fao.org and clearly marked as to which resolution they pertain to.

CoC19 (Paragraph.153):

The CoC19 **RECOMMENDED** that the Commission (S26) endorse WPICMM05’s recommendations that the e-MARIS application enter into implementation for the next compliance assessment of the 2023 Compliance Committee meeting (CoC20) and that those CPCs encountering problems be allowed to continue using the paper system for Compliance Committee 20.

Connect to the e-MARIS application with your credential to submit your information, data or report for each requirement: <https://emaris.iotc.org>

Data and information to be sent to the Secretariat in accordance with the specified deadline

January 2023

Before 1 January, 2023:

Resolution 21/01 *On an interim plan for rebuilding the Indian Ocean yellowfin tuna stock in the IOTC Area of Competence*

INFORMATION REQUIRED: PURSE SEINERS SERVED BY SUPPLY VESSEL IN 2023

Paragraph 20:

CPC/flag States shall report annually before the 1st of January for the coming year of operations which Purse seiners are served by each supply vessel.

Resolution 18/07 *On measures applicable in case of non-fulfilment of reporting obligations to the IOTC*

INFORMATION REQUIRED: SUMMARY OF REPORTED CATCHES IN SUPPORT OF RES. 18/07

Paragraph 4:

To facilitate the reporting of zero catches as required under paragraph 1 of Annex I of this Resolution, the following procedure shall apply:

- a) as part of the IOTC 1RC electronic form used to report nominal catches, the Secretariat shall include a matrix by IOTC species as well as the most commonly caught elasmobranch species according to records of catches and incidents as established in Resolution 15/01 on the recording of catch and effort data by fishing vessels in the IOTC area of competence (or any subsequent superseding Resolution) and main IOTC gear groups on the basis of the format set out in Annex II of this Resolution;
- b) CPCs, as part of their total catch data reporting, shall complete the cells in the matrix with either a value of ‘one’ (1) to indicate where that CPC had catches (positive catch) for a particular species/gear combination or a value of ‘zero’ (0) to indicate where that CPC had no catches (zero landings + zero discards) for a particular species/gear combination;
- c) The “Catch columns” section of the electronic Form 1RC shall only include reports of positive catches.

A template report exists, for zero-catch matrix, click [HERE](#) (Form 1DR),

Resolution 19/02 *Procedures on a fish aggregating devices (FADs) management plan*

INFORMATION REQUIRED: DATA ON FAD FISHERIES IN 2022

Paragraph 22:

CPCs shall submit the data elements prescribed in Annex III and Annex IV to the Commission, consistent with the IOTC standards for the provision of catch and effort data, and these data shall be made available for analysis to the IOTC Scientific Committee on the aggregation level set by Resolution 15/02 (or any subsequent superseding Resolution), and under the confidentiality rules set by Resolution 12/02 (or any subsequent superseding Resolution).

IOTC Members and non-members

Commission Contracting Parties (Members)

Membership of IOTC is open to Indian Ocean coastal countries and to countries or regional economic integration organisations which are members of the UN or one of its specialised agencies, and are fishing for tuna in the Indian Ocean. There are currently 30 Contracting Parties (Members), the majority of which are Nation States.

Commission Cooperating Non-Contracting Parties (CNCP)

In addition to being a full Member, States with a real interest in the Indian Ocean fisheries of tuna and tuna-like species can participate in the IOTC process as a Cooperating Non-Contracting Party (CNCP). This status is granted for a period of one year, upon request from the State. CNCPs are not obliged to pay a financial contribution, but they do not enjoy voting rights on IOTC matters, and they are subject to the same regulations as the full Members. CNCP status is reviewed annually by the Commission.

The current membership of the Commission are available at the following link.

IOTC Area of Competence

IOTC Agreement: Article II. AREA OF COMPETENCE:

"The area of competence of the Commission (hereinafter referred to as the "Area") shall be the Indian Ocean (defined for the purpose of this Agreement as being FAO statistical areas 51 and 57 as shown on the map set out in Annex A to this Agreement) and adjacent seas, north of the Antarctic Convergence, insofar as it is necessary to cover such seas for the purpose of conserving and managing stocks that migrate into or out of the Indian Ocean."

Note: The Commission, at its 4th Session in 1999 agreed to modify the western boundary of the IOTC area of competence from 30°E to 20°E, thus eliminating the gap between the areas covered by IOTC and ICCAT.
