10.1	<i>List of possible infractions under the ROP</i>
10.1.1	Review of the evidence to be presented on vessels presumed to have committed the infractions
10.1.2	Request for further evidence from the CPCs on the list of vessels presumed to have committed infractions
10.1.3	Recommend actions for the CoC on the list of vessels presumed to have committed infractions
10.1.4	Monitor the development of recommended actions on the vessels that have committed infractions
10.1.5	Recommend that the list of possible infraction under the ROP is presented to the WPICMM

DISCUSSION

The work plan of the Working Party on the Implementation of Conservation and Management measures (WPICMM), component 10 “Monitor the development of, and recommend actions for the list of Large Scale Tuna Longline Vessels (LSTLVs)/carrier vessels presumed to have committed infractions of IOTC CMMs, as recorded by observers deployed under the at-sea transshipment programme”. Sub-component 10.1 makes provision for CPCs to review the list of possible infractions detected under the ROP and Recommend actions for the Compliance Committee (CoC) on the list of vessels presumed to have committed infractions (Activity 10.1.3).

In line with the above, the [Sixteenth Session of the Compliance Committee \(CoC16\)](#) made the following recommendation:

[IOTC-2019-CoC16-R](#) Paragraph 31: Notwithstanding the timing of the WPICMM meeting and the deadline for responses, the CoC **RECOMMENDED** that the responses to the possible infractions be analyse by the IOTC Secretariat.

In view of the above recommendation the IOTC Secretariat provide the list of possible infractions reported up to the 31st December 2022 (Annex I), in order to receive the results of the investigations by 15th January 2023, from the concerned fleets.

In line with the requirement of IOTC Resolution 22/02 *On establishing a programme for transshipment by large-scale fishing vessels*, this document provides a summary of possible infractions against IOTC Resolutions by Large Scale Tuna Longline Vessels (LSTLVs) and carrier vessels, as recorded by observers deployed under the Programme during 2022.

¹ IOTC-Secretariat@fao.org

Paragraph 31. The IOTC Secretariat shall, when providing CPCs with copies of all raw data, summaries and reports in accordance with paragraph 10 of Annex IV to this Resolution, also indicate evidence indicating possible violation of IOTC CMMs by LSTLVs/carrier vessels flagged to that CPC. Upon receiving such evidence, each CPC shall investigate the cases and report the results of the investigation back to the IOTC Secretariat three months prior to the annual Session of the IOTC Compliance Committee. The IOTC Secretariat shall circulate among CPCs the list of names and flags of the LSTLVs/Carrier vessels that were involved in such possible violations as well as the response of the flag CPCs 80 days prior to the annual Session of the IOTC Compliance Committee.

The summary of possible infractions are presented under four distinct categories (Possible infractions relating to authorisation to fish (ATF); Possible infractions relating to Vessel Monitoring System (VMS); Possible infractions relating to fishing logbooks, and Possible infractions relating to marking of fishing vessels; by fleets, in Table 1. Detailed information of these possible infractions are provided in Annex I. The observations that have been made by observers are in fulfilment of observer tasks, as provided for in Resolution 22/02.

1. Annex IV, Paragraph 5. The observer tasks shall be as follows:
 - a) On the fishing vessel intending to tranship to the carrier vessel and before the transshipment takes place, the observer shall:
 - i. check the validity of the fishing vessel's authorisation or licence to fish tuna and tuna-like species and sharks in the IOTC area of competence;
 - ii. check and note the total quantity of catch on board, and the quantity to be transferred to the carrier vessel;
 - iii. check that the VMS is functioning and examine the logbook;
 - iv. verify whether any of the catch on board resulted from transfers from other vessels, and check documentation on such transfers;
 - v. in the case of an indication that there are any violations involving the fishing vessel, immediately report the violations to the carrier vessel's master,
 - vi. report the results of these duties on the fishing vessel in the observers report.

In all, up to the 31st December 2022², a total of 148 possible infractions were recorded (2021: 10; 2020: 59; 2019: 178), of which³:

- 50 related to fishing logbook (2021: 3; 2020: 20; 2019: 33),
- 81 related to marking of vessels (2021: 4; 2020: 19; 2019: 51),
- 13 related to ATF (2021: 3; 2020: 20; 2019: 22),
- 3 related to VMS (2021: 0; 2020: 0; 2019: 70),

These were communicated to the concerned fleets participating in the Programme, as and when the concerned deployment reports were approved by the IOTC Secretariat.

Of the 148 possible infractions notified to the participating fleets, 136 responses were received (Table 1). Three fleets, Japan, Malaysia and Taiwan, Province of China, have provided their responses before the deadline of 15th January 2023, and two fleets, China and Seychelles have provided some of their responses for the cases observed after the deadline of 15th January 2023. Additionally, two fleets, Mauritius and Oman, have not provided any response to the possible infractions notified. The responses are provided in paper [IOTC-2022-WPICMM06-04 Add2](#).

² Note: observer deployment was suspended in March 2020 (Circular 2020-14) and a limited number of observers were deployed in 2021, due to the COVID-19 pandemic. Some unobserved deployments initiated in 2021 continued throughout the first quarter of 2022. Additionally, persistent COVID-19 restrictions, impeded observers to board certain LSTLVs and pursue their duties in a normal fashion. Consequently, the number of possible infractions may not be reflective of what would be detected in a "normal" year.

³ Further to the number of possible infractions reflected under the four categories, an additional possible infraction related to the conduction of an unauthorised transshipment operation was also reported during 2022.
