## IMPLEMENTATION OF REPORTING OBLIGATIONS OF NOMINAL CATCH DATA – RESOLUTION 18/07

Prepared by: IOTC Secretariat, 22 MARCH 2023

---

### PURPOSE

To provide the Compliance Committee with an update on the current level of implementation of IOTC Resolution 18/07 on *Measures applicable in case of non-fulfilment of reporting obligations in the IOTC*.

Paragraph 3. Following the review carried out by the Compliance Committee, the Commission at its annual session, according to the guidelines attached (**Annex I**), and after having given due consideration to the relevant information provided by the concerned CPCs in these cases, may consider to prohibit CPCs that did not report nominal catch data (exclusively), including zero catches, for one or more species for a given year, in accordance with the Resolution 15/02, paragraph 2 (or any subsequent revision), from retaining such species as of the year following the lack or incomplete reporting until such data have been received by the IOTC Secretariat. Priority shall be given to situations of repeated non-compliance. Any CPC unable to meet these reporting obligations owing to engagement in civil conflict shall be exempt from this measure. The CPC concerned will work with the IOTC Secretariat to identify and implement possible alternative methods for data collection, using established FAO data collection methods.

### BACKGROUND

IOTC Circular 2018-11, reminded CPCs to provide information on their recorded catches, including zero-catches or non-applicability of reporting requirements, by gear and species for the year 2016.

In its deliberations in 2018, the Compliance Committee **RECOMMENDED** that the Secretariat provide a list of CPCs not meeting the reporting requirements for nominal catch per species and gears for future meetings.

In its deliberations in 2019, the Compliance Committee **RECOMMENDED** to the Secretariat to include this measure in the compliance report and **NOTED** the engagement of all present members to transmit this table for next year. This reporting requirement is now included in individual CPCs Compliance Report and a summary of the reports received by the IOTC Secretariat is presented in this document.

### DISCUSSION

#### IMPLEMENTATION OF REPORTING OF CATCH DATA

In accordance to IOTC Resolution 18/07 (previously Resolution 16/06), starting in 2016 and annually thereafter, CPCs are required to submit total catch data to the IOTC Secretariat in accordance with the Resolution 15/02 and the Scientific Committee template, including zero catches.

For the 2022 reporting cycle, that is, for data pertaining to the year 2021, sixteen CPCs (Australia, Comoros, India, Indonesia, Iran, Japan, Kenya, Korea, Rep. of, Madagascar, Malaysia, Maldives, Mauritius, South Africa, Sri Lanka, Thailand and the United Kingdom) have submitted their nominal catch matrices in full.

Nine CPCs (Bangladesh, Eritrea, Mozambique, Oman, Pakistan, Somalia, Sudan, Tanzania, and Yemen) did not submit their nominal catch matrices and therefore are at fault with their nominal catch reporting obligations, including reporting on zero catches.

Four CPCs (France (OT), Philippines, Senegal, and Liberia) confirmed that they did not have fishing vessel operating in the IOTC Area in 2021.

Overall, the number of properly filled forms 1-DR received for the reporting cycle 2021 decreased compared to the previous reporting year.

During the same reporting cycle, three CPCs (China, the European Union, and Seychelles) submitted a catch matrix that is not in full accordance with the requirements of IOTC Resolution 18/07.

It should be noted that the Philippines, which have confirmed that they did not have vessels operating in the IOTC Area in 2021, have anyhow submitted a template for the zero-catch matrix, although in a wrong format.

The tables in Appendix 1, below, summarises the number of CPCs reporting positive nominal catch data by gear and species for 2021 (Table 1). Tables 2 - 20, provide individual CPCs record of reports for nominal catch data by gear and species, for 2021 for those CPCs that have submitted their report.

#### **RECOMMENDATION/S**

- That the CoC20 **NOTE** that only sixteen CPCs submitted a catch matrix in full accordance to the requirements of IOTC Resolutions 18/07.
- That the CoC20 **NOTE** that three CPCs submitted a catch matrix although in a format not in full accordance with the requirements of IOTC Resolutions 18/07
- That the CoC20 **FURTHER NOTE** that four CPCs (France (OT), Philippines, Senegal, and Liberia) did not operate any fishing vessel in the IOTC Area in 2021.
- That the CoC20 **RECOMMENDS** to the Commission the course of action, as provided under IOTC Resolution 18/07, for CPCs that have not reported information in accordance to IOTC Resolutions 18/07.

## Appendix 1

**Table 1.** Number of CPCs reporting on nominal catch data by species and gear type, in accordance to IOTC Resolutions 18/07 (for zero catches), for 2021.
