Our understanding was that the guidelines are to guide the aspects (emphasizing the mandatory ones) to be addressed in the report and not to serve as a questionnaire (a form). The guidelines also help to structure the information required and regarding this aspect, we kept the same structure of the proposed chapters. The reason for not presenting certain subchapters was because we felt that the information would become too repetitive. For example subchapters 6.6 |

"Para 2: Vessel Masters shall take the necessary measures to fully utilise the entire catches of sharks, with the exception of species prohibited by the IOTC. Full utilisation is defined as retention by the fishing vessel of all parts of the shark excepting head, guts and skins, to the point of first landing. Para 3 a) Sharks landed fresh: Vessel Operators are prohibited to remove shark fins on board vessels. They are also prohibited the landing, retention on-board, transshipment and carrying of shark fins which are not naturally attached to the shark carcass until the first point of landing. b) Sharks landed frozen: Vessel Operators that do not apply sub-paragraph 3 a) of resolution 17/05 for all sharks shall require their vessels to not have on board fins that total more than 5% of the weight of sharks on board, up to the first point of landing. CPCs that currently do not require fins and carcasses to be offloaded together at the point of first landing shall take the necessary measures to ensure compliance with the 5 % ratio through certification, monitoring by an observer, or other appropriate measures." | |
