

## The compliance process and the e-MARIS application

### The e-MARIS campaign CoC24 - New requirements and new functionalities

PREPARED BY: IOTC SECRETARIAT<sup>1</sup> 21 JANUARY 2026

#### PURPOSE

To provide participants at the Working Party on the Implementation of Conservation and Management Measures (WPICMM) with the opportunity to review, provide comments and endorse:

- the e-MARIS campaign “*CoC24 – 2027 assessment campaign*”,
- the new requirements, if any, of the *CoC24 – 2027 assessment campaign*, and
- the new functionalities, if any, available in the *CoC24 – 2027 assessment campaign*.

#### BACKGROUND

In 2013 the Indian Ocean Tuna Commission (IOTC) Performance Review made two recommendations related to compliance with data collection and reporting and following up on infringements. These recommendations prompted the e-MARIS application concept, which was endorsed by the Commission (S22) in 2018.

The e-MARIS has been in production since three campaigns/compliance assessment cycles of the Compliance Committee (CoC), with the majority of CPCs having used e-MARIS to report on the various IOTC obligations, including the submission of the mandatory Implementation Report (IR) and the Compliance Questionnaire (CQ) and facilitating the Compliance Report processes in e-MARIS to support the work of the Compliance Committee.

At its [21<sup>st</sup> meeting](#), the Compliance Committee noted and recommended the following:

[IOTC-2024-CoC21-R](#) - Paragraph 170. The CoC21 **NOTED**, in accordance with the recommendations of CoC15, the progress made by the IOTC Secretariat towards the work related to the development and improvement of the e-MARIS application to support the IOTC Compliance process, and **FURTHER NOTED** the improvements implemented to facilitate reporting in e-MARIS.

[IOTC-2024-CoC21-R](#) - Paragraph 84. The CoC21 **RECOMMENDED** that the Commission (S28) consider making the use of e-MARIS mandatory, while recognising the need to streamline procedures for reporting.

At its [28<sup>th</sup> Session](#), Indian Ocean Tuna Commission endorsed the following:

[IOTC-2024-S28-R](#) - Paragraph 94. ....the Commission **ENDORSED** the remaining recommendations arising from the Report of the 21<sup>st</sup> Session of the Compliance Committee as its own.

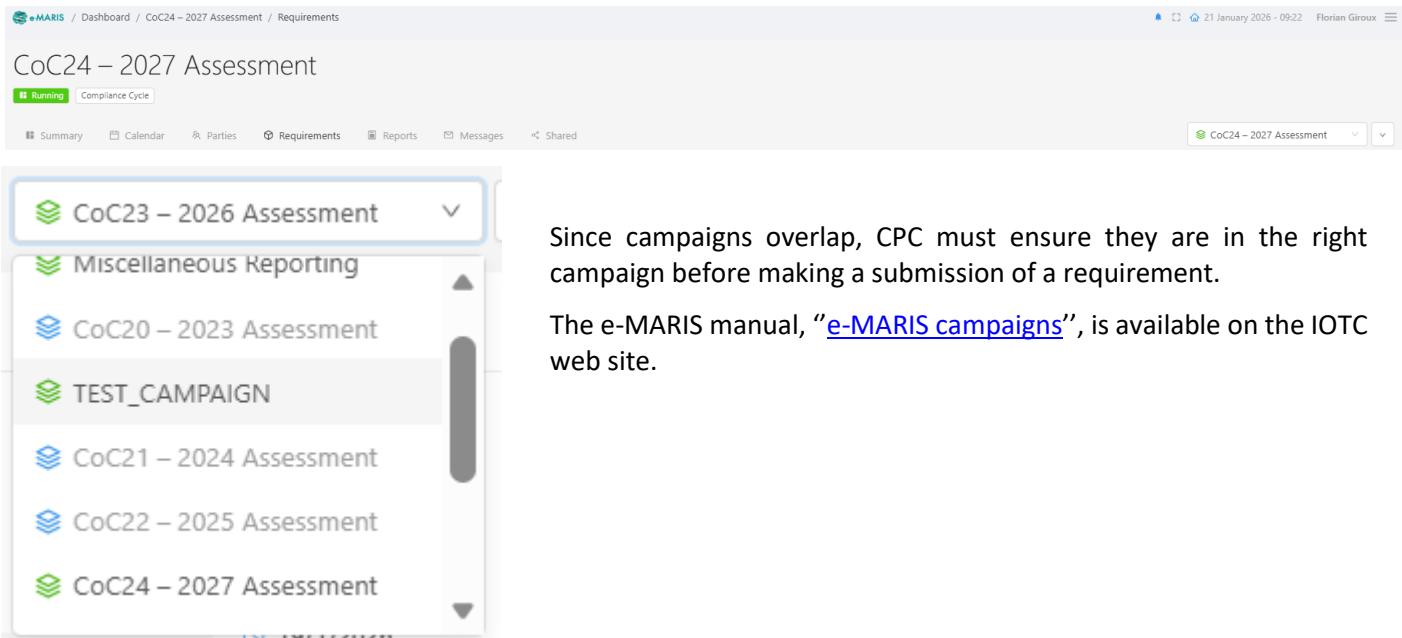

The mandatory use of the e-MARIS application was decided by the Commission (S28 - 2024) from the campaign “CoC22 - 2025 assessment”.

## DISCUSSION

### A) THE E-MARIS CAMPAIGN COC24 - 2027 ASSESSMENT

In the e-MARIS application, the campaign “CoC24 - 2027 assessment”, is available from the compliance dashboard under the campaign menu, as presented below:

The screenshot shows the e-MARIS application interface. At the top, there is a navigation bar with icons for e-MARIS, Dashboard, CoC24 – 2027 Assessment, Requirements, and a date/time stamp (21 January 2026 - 09:22) and user (Florian Giroux). Below the navigation bar, the title 'CoC24 – 2027 Assessment' is displayed. A 'Compliance Cycle' button is also present. The main content area shows a list of campaigns in a tree view. The 'TEST\_CAMPAIGN' node is expanded, revealing its children: 'CoC23 – 2026 Assessment', 'Miscellaneous Reporting', 'CoC20 – 2023 Assessment', 'CoC21 – 2024 Assessment', 'CoC22 – 2025 Assessment', and 'CoC24 – 2027 Assessment'. The 'CoC24 – 2027 Assessment' node is highlighted with a gray background. At the bottom of the interface, there are buttons for Summary, Calendar, Parties, Requirements, Reports, Messages, and Shared.

Figure 1: The e-MARIS campaign menu.

The compliance reports for the CoC24 will be populated with information reported in the e-MARIS campaign “CoC24 - 2027 assessment”: Compliance assessment cycle will be concluded with the CoC24 in 2027 and the Commission (S31) meetings. The compliance assessment is conducted during the year 2027 for the data/information/report submitted to the Secretariat for the years reporting on, i.e. 2025 and 2026.

The description of the campaign is presented in the below table:

## B) THE NEW REQUIREMENTS AND THE NEW FUNCTIONALITIES

Several improvements and changes might be required in the e-MARIS requirements setting and design every year. The main objective is to streamline and to facilitate the reporting in the e-MARIS campaign “CoC24 - 2027 assessment” and “CoC24 - 2027 assessment”.

### NEW FUNCTIONALITIES

No new functionality has been introduced in the e-MARIS campaign “CoC24 - 2027 assessment”.

Note that the e-MARIS campaign “CoC24 - 2027 assessment” benefits from functionalities introduced in the previous campaigns. They are a) the Re-call functionality, b) the Integration functionality, c) e-RAV functionality, d) the e-PSM functionality, and e) the Dynamic table functionality.

### NEW REQUIREMENTS

Three new reporting requirements have been introduced in the e-MARIS campaign *CoC24 – 2027 assessment*. They are from Resolutions 25/03, 25/05 and 25/08, adopted in 2025.

- **Requirement number 2.27:** Resolution 25/03 On establishing catch limits for skipjack tuna in the IOTC area of competence (Paragraph 4) - Catch Limits of Skipjack tuna in the IOTC Area of Competence.

Descriptions:
