

e-DFAD 1.2.1 Release notes

08/06 May 2026

This release includes the following:

- [IMPROVEMENT] All revisions of an FOB can now be amended by the Buoy Owner, not just the most recent one.
- [FIX] An issue where the count of followed buoys displayed doesn't refresh instantly when interactively activating or deactivating a buoy.
- [FIX] An issue where, in the Vessel card, any Previous flag state is shown as the unresolved internal tag code in the tooltip
- [FIX] An issue where spurious validation highlights were displayed on redacted records
- [FIX] An issue where updating an FOB details would return an "invalid submission time" error
