

e-DFAD 1.2.2 Release notes

15 June 2026

This release includes the following:

- [IMPROVEMENT] Transfers can now be reported after the original buoy has been reported as deactivated
- [IMPROVEMENT] Better parsing and more granular validation on coordinates.
- [IMPROVEMENT] The application version number is now available in the user menu
- [FIX] An issue where, in downloaded search results, fields that should be redacted are empty instead.
- [FIX] An issue where amending a backlog activation shows an error on the activation date
- [FIX] An issue where post transfer a buoy can be deactivated more than once
